The background is a solid red color with a subtle gradient. In the four corners, there are decorative elements consisting of thin, light-orange lines that resemble circuit traces or a stylized network. These lines connect to small, hollow circles of the same color. The lines and circles are arranged in a way that suggests a digital or technological theme, with some lines extending towards the center and others remaining near the corners.

The background is a solid red color with a subtle gradient. In the four corners, there are decorative white line art elements resembling circuit boards or neural network connections. These elements consist of thin lines that branch out and terminate in small circles, creating a symmetrical, geometric pattern.
